The Mercury was at 58 at 4 p. m. yeaterday Summer, with all its heat, is upon us, and oh! how anxiously we will look for the cool brocker of October.

We rather like to cut the wrappers of our exchanges ourselves, and seriously and soleranly protest against the friendly offices of our visitors in this respect.

J. E. SEARS'. PERSONAL.-We were glad to receive a visit from Mr. H. B. Pidcoke, of Gatesville, yesterday. We are pained to hear accounts of the unessy and unsettled condition of the

people. The crop prospects are good. A prominent lawyer threw a pail of water out of a window yesterday, but the joke is that its destination was the be d of an indignant passer-by The reconciliation was in progress when we left. A flinty, hard-

hearted proceeding, to be sure. BRIDGE NOTICE,-The Stockholders of the Waco Bridge Company are requested to meet at the office of Fort & Jackson, this morning at ten o'clock, to elect the officers of the Company for the ensuing year.

WM. A. FORT,

WM. A. Fort,
In the District Court yesterday Wm. Parterson withdrew his application for a new trial, and was sentenced to the penitentary for two years. Geo. E. Simms, for the murder of Clayton, convicted of murder in the second degree, in which case an appeal was taken, after making his statement, withdrew the application for a new trial, and was sent to the penitentary for five years. This makes thirteen prisoners so deposed of, this term.

The District Court adjourned yesterday. The amount of business disposed of during the term was ener nous. The criminal docket Was nearly exhausted, thanks to the energy and devetion of our excellent District Attorney, Maj. Pearre. We have no maudling sympathy for off-inders against the law, when the offence is committed in cold blood, or by the majory of the law sustained, and the lives and property of the honest citizens protected, if every rogue in the State were to be hung as high as Haman te accomplish it. The "hot end of the poker" to the violators of the law, is the doctrine tedesign, and would be glad to see day. The taking off of thirteen, will case matters up here for a while, it is to be hoped

ABOUT RITTERS -At certa'n periods of life a tonic is a uscessity but there is danger in using stimulants that injure the organs of digestion while giving temporary relief. To obviate this, and present to the public a tonic free from alcoholic posson, Dr. Greene prepared the oxygenated bitters, a sure cure for dyspepsia and all kindred complaints. Sold everywhere John F Henry, Curan & Co., Proprietors, 5 and 9 College place, New York.

LET THERE BE NO SECRETS IN MEDICINE, OF rather no pretended accrets. The Medical Facul-ty bushish as soon as made, all their discover-ise, and almost all that is known of real value for the curs of disease has been discovered by for the curs of disease has been discovered by them. Dr. Ayra takes the honorable honest course, and right because it is honest. He goes to work and invents the pest remedy which medical skill can devise for the cure of certain complaints, then publishes what it is, and mantains his controle of it solely by ma-king it cheaper, better, more perfect, than any body else can. If the people would exact this of all who offer medicines, they would have much less trencle and trash to swallow.

tain death to the sensitive and fragile. What such persons need is stimulation, and the very best stimulant they can take is Hostet-ler's Stomach Bisters. To give depleting medicines to the nervous, the debilitated, the infirm, the emaciated, the desponding, is like firing broadsides into a sinking ship. Thousands of dyspeptics are killed every year by medicines that sap the physical and constitutional stamiss which, if re-inforced by constitutional sizemas which, it remainds to that powerful vegetable tonic, would soon prove an overmatch for the disease. It is true that the bowels require to be relieved and regulated, and the liver controlled, as well'as the atomach to be toned and the system strengthened, and let it be borne in mind that the Bitters accomplish these objects gently and surely.

REASONS WHY

Peters' Patent Tanning Process Is Superior to all Others.

First-Because it performs the operation of Tanning Leather in from two to fifteen days for kips and lighter skins; and from fifteen to thirty days for bridle and heavy

narness, leaving it free from chemicals. Second-Because, while it dispens with the use of bark, and reduces the ex pense of tanning at least 50 per cent.; it may be used in combination without bark, bark extract or japonica, and when so used is near

ly as economissl and rapid. Third Because of the superior beauty, strength and durability of the Leather-a sheepskin having body and strength equal to

calf tanned by the old process. Fourth-Because of the flexibility and oftness of the Leather.

Fifth -Because it requires but few dollars spital to start in the business.

Sixth-Because you can turn over your noney twelve or tifteou times a year, instead of once, the old way.

Feventh-Because it is so simple that any person can make superior leather by giving the process a few days' attention.

Eighth-Because of its cleanlmess and readom of offensive odors, as compared with the old process, rendering the business adnissible in the midst of mercantile or other departments of trade.

Ninth-Because money can be made in a shorter time and on less capital than in any other business.

Tanneries are in operation in Jefferson, Huntsville and Sherman, and will be in ope ration in two weeks in Calvert, turning out the best quality of leather under the Peters process, in the time specified.

WOMAN'S HEALTH.

WOMAN'S HEALTH.

It is a lameatable fact, that from causes not generally understood, female suffering appears to be on the increase. The awest young girl just ontering into womanhood soon becomes pale, feetle, emaciated, lifeless, with headaches, pains and aches, loss of appetite, palpitation of the heart, cold feet and hands, and appears to loose that youthful vim and sprightliness so much admired. The middle aged married lady is no less exempt from some troublesome annoyance. She continually grunting and fretting with pains and aches, her sucretions are all impaired, her energies are lost, she forces bereeff in into society, she "sours" on almost everybody, her health slowly declines until ahe becomes a mere drone in her own household. And she at the "ture of lite" is no stranger to suffering peculiar to her sex at that age. Habits, cimate and instensive surely bring about THEEK SAD RESULTS that are now hurling thousands of females, old and young, to untimely graves.
